SureFire Hosts 12th Annual International Tactical Rifle Competition

Fountain Valley, CA -- SureFire, LLC, manufacturer of the world's finest illumination tools and tactical products, is hosting the 12th Annual International Tactical Rifleman's Competition (ITRC), August 21-23 at the SureFire training facility in Gillette, WY.

The ITRC is not only a tough, real-world shooting competition, but it's a proving ground for top military and law enforcement personnel as well as private citizens. Two-person teams will use long-range rifles, carbines, and handguns to complete the courses and compete for various titles and generous prizes.

Two-man teams will work together to solve course problems, while travelling with range officers that will record scores and enforce match rules. Each team will be equipped with one long-range rifle, one carbine, and two pistols. The competition ends with the Golden Egg Shoot giving competitors one shot to hit a chicken egg-sized target from 500 yards away.

Prior to the competition, a three-day rifle training course will be offered from August 17-19. It will be followed by an open range day on the 20th, to allow for final practice prior to the ITRC. The class includes intensive equipment review and testing, and rigorous distance, wind, and elevation data development for targets from zero up to the practical limits of the equipment. This extensive course can serve as an excellent tune up for the ITRC.

To register, or for more information, including lodging and a full list of rules and regulations, please visit www.surefire.com/ITRC. The cost for the ITRC is \$600 per team. For inquiries please email itrc@surefire.com or call 714-545-9444 and ask for Technical Support.

About The SureFire Training Facility

The SureFire Training site is located 30 miles north of Gillette, Wyoming, in the Powder River Basin. The range site was chosen for the suitability of the terrain, and its private, undisturbed location. The range features an 1800 yard rifle range, well suited for long range rifle/countersniper training, as well as many smaller ranges and combat courses designed for handgun, shotgun, carbine, and special weapons use. The football-size shoot house is capable of live fire, as well as force on force training, under all lighting conditions. Multiple vehicles and three school buses are integrated into the shoot house for specialty vehicle training. Two towers and multiple firing positions surround the shoot house for observation and sniper initiated entry training.

About SureFire

Located in Fountain Valley, California, SureFire is a leading manufacturer of high-performance flashlights, weapon-mounted lights, and other tactical equipment for those who go in harm's way or anyone who demands the ultimate in quality, innovation, and performance. SureFire illumination tools are used by more SWAT teams and elite special operations groups than any other brand. SureFire is also an ISO 9001:2000 certified company, for more information call **800-828-8809** or visit www.surefire.com.
