NOTE: “Medium” size fits most people. Size is based on size of the ear's Helix

Measure the distance from the top to the bottom of your ear's Helix Bowl to determine which EarPro earpiece size will best fit your ear.

- SMALL = 7/8" INCH
- MEDIUM = 1" INCH
- LARGE = 1 1/8" INCH

For more comfort the earpieces can be adjusted by trimming the helix portion, and the stem position (slide out) can also be adjusted.
